Licoria

Technical Data Sheet

Revision 2 · Issued 2026-11-16

Peeled licorice root

Product	Peeled licorice root
Botanical name	Glycyrrhiza glabra L.
Part used	Root and rhizome
Origin	Azerbaijan; wild-harvested under a harvesting permit
Form and size	Long sticks peeled by machine and by hand; peeling degree 50–100% on request.
Main use	Bark removed for a milder, cleaner taste: liqueur and chocolate flavouring
Packing	Per order
Minimum order (MOQ)	20 t
Lead time	30–40 days from contract (can be longer from May to August)
40' container load	On request
Off-size pieces and dust	Typically below 1%
Shelf life and storage	2 years; store in a cool, dry place, away from direct sunlight
Treatment	Washed during processing; fumigated before shipment
HS code	1211 90 86 00
Laboratory parameters	Glycyrrhizic acid: typically 4–6% (dry basis); Moisture: max. 12%. Typical values for guidance; the certificate of analysis for each lot prevails.
Documents per shipment	Sales contract, Proforma invoice, Commercial invoice, Packing list, Certificate of origin, Phytosanitary certificate, Fumigation certificate, Certificate of analysis (COA), CMR / Bill of Lading
